### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Randolph Smith on 01/24/05.

The application has been amended as follows:

In the abstract, line 13, the phrase "A chip" has been deleted.

In the abstract, lines 14-22 has been deleted.

The following is an examiner's statement of reasons for allowance: The prior art, Rollier, teaches a fixed bed, at least one tool post, a headstock, a headstock base, the headstock and the headstock base are attached to each other and the prior art, Rollier and Romi or Frank et al suggests a chip collecting opening in the fixed bed. However, the prior art fails to teach the chip collecting opening "being open when said headstock is positioned in the workpiece machining position and being closed when said headstock is positioned in the workpiece loading and unloading position" .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
